613 Associate Behavior Analyst

Associate Behavior Analyst (613)

Service Code Definition:

Assesses the function of a behavior of an individual and designs, implements, and evaluates instructional and environmental modifications to produce socially significant improvements in the individual’s behavior through skill acquisition and the reduction of behavior, under direct supervision of a Behavior Analyst or Behavior Management Consultant who is within the same vendored group practice.

Duties and qualifications pursuant to Title 17 of the CCR section 54342(a)(8) remain the same.
